EGT Express – the international logistics company with operations in more than 50 countries delivers turnkey solutions to all your export & import needs.

With EGT’s extensive experience of bridging Europe with the countries of Asia, we take great pride in providing advanced logistics solutions for LCL/FCL, LTL/FTL shipments through to oversized & overweight consignments as well as reefer cargo for all EGT destinations.

Our Logistics & Distribution Centre Serves the whole of Asia

With a service network of interconnected hubs we provide value-added services to consolidation, warehousing, packaging, customs and other activities necessary to ship freight from European countries import/export, Asia up to China and South Korea.

Modes of Transport & Routings

EGT offers a wide range of freight forwarding with own groupage routes that connect the whole of Asia with all European countries. Our own fleet collects time critical cargo from all destinations in the EU and delivers the cargo to the departure port or hub for further transshipping.

With the further services we can provide to the management of your supply chain, EGT becomes your full service partner with multimodal solutions.

Railway Terminals

Also, we ensure direct connection to railway terminals to provide a time-effective mode of transportation.

Bonded Service Warehouses

By running our own warehousing facilities, we provide the possibility to put cargo into transit mode at any of our consolidation hubs.

Vilnius (LT) - 1 000 sqm logistics site

Olomouc (CZ) - 5 000 sqm logistics site

Haskovo (BG) - 1 000 sqm logistics site
