ROAD SOLUTIONS

EGT's fleet of vehicles operating daily in the EU, in addition to our Eastern destinations ensures we are positioned to meet all requirements for the shipments that we are tasked to complete.

- Over 300+ own fleet
- ISO 9001, 14001 and 18001 certified
- European and Asian road options
 - FTL
 - LTL
 - Groupage
- Dangerous goods (ADR)
- Refrigerated transport capability
- Direct scheduled lanes
- DAP & DAT
- Out-of-gauge (OOG)
- Express (JIT)

// *Interconnected branches spanning Europe and Asia, EGT's road network is unrivalled for its ability to deliver through the EU, Asia and the Middle East.*

RAIL SOLUTIONS

With the importance of the link with China, rail is now becoming the new frontier regarding transportation of freight. Historically most freight has been shipped via sea, with transit times pushing under 3 weeks and over 10 times cheaper than via air, rail is fast becoming a viable alternative.

EGT offer various routings into our core markets through a non-asset-based network, we provide our clients with the following:

- Daily departures
- Russian, European (IUC) gauges
- Tracking from collection to delivery
- High levels of security
- Project transportation / Out of Gauge (OOG)
- Door to Door multimodal services
- East to West & West to East services
- LCL / FCL possibilities

// *Our commitment to the environment, rail allows for a far more ecological alternative to sea with reductions in CO₂ nearly 5 times less than sea transportation.*

AIR SOLUTIONS

Centrally positioned within the EU gives us the ability to react to the ever-changing needs of our clients, ensuring we provide unrivalled service.

The location of our fleet alongside the number of airports lying within a 300 km of our terminals, enables us to serve our clients with several cost-effective solutions.

Offering our clients, the following:

- Door / Door – Term / Term
- Consolidation / Distribution
- Road network link offering multimodal solutions
- Onboard courier

// *A daily presence in over 15 EU countries on own fleet, we are positioned to assist whenever a time critical shipment requires collection.*

SEA SOLUTIONS

Through many years' experience relating to C.I.S. markets, we have accumulated a vast amount of knowledge enabling our clients to receive the best-fit for each of the shipments we complete.

We offer the following services:

- Consolidated freight (LCL)
- Container shipping (FCL)
- Project shipments
- RO / RO
- Door to door
- Multimodal connections (e.g. road > sea / road > rail > sea)

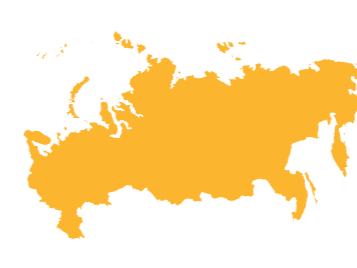

// *Through a global network of offices and experienced project managers, we ensure cost-effective bespoke solutions for all your shipping needs.*

- Cross docking
- Reverse logistics
- Customs Bonded areas
- Temp Controlled Storage
- Transshipping
- Inventory control
- Specialist handling equipment up to 12t lift
- Track and trace
- Labelling
- Pick & Pack

// For a solution based on your needs, with the flexibility allowing for fluctuations in shipments, EGT provide an option built around you.

DISTRIBUTION SOLUTIONS

European distribution of goods for the industries we work with or Eastern partners who utilize our warehousing, combined with distribution are completed through our own fleet of vehicles. Offering LTL / Groupage & FTL options daily in over 15 EU countries, combined with our contracted partners we have the means to ensure distribution on a global scale, in a timeframe that fits our clients ever changing needs.

- Same or Next day collection / delivery
- Standard 48/72 hr delivery schedules
- European milk runs
- ADR / Frigo shipments

With 3 strategically located warehouses, combined with daily operations in both the EU and Eastern destinations, we assist clients to achieve delivery in the timeframe required, from express to day specific deliveries.

// For global distribution of your goods, EGT ensure KPI's are achieved through due diligence from collection through to delivery.

FREIGHT FORWARDING SOLUTIONS

With a team of over 200 logistic professionals focused on delivering our clients' cargo to destinations across the globe, we have the solutions needed to deliver.

With specialist teams for each of our destinations, we ensure clients have the relevant knowledge needed relating to all associated shipping requirements, including insurance, customs and mode of transport.
